

THE SCIENCE OF ANALOGIES – *enriching thought and creativity*

A short seminar that will unlock the science behind the **Power of Analogy** in *shaping thought-power and creativity*.

Understanding the underlying *brain-science* behind enabling the *power of thinking* will give you a head-start in devising your strategies to deliver knowledge and coach children to become creative, innovative, and productive thinkers! This is one of the major *pattern-intelligence* initiatives of **The Pattern Institute**.

Filled with numerous practical tips that can be practiced straightaway!

Just-In-Time for Junior and middle school teachers, and parents of under-teens

Educationists, teachers, and parents who are interested may register by scanning or clicking the QR code on the left
